

Drive-in Cinema

At TGIFF 2020, due to the restrictions imposed by the coronavirus epidemic, the only movie screening will take place in a Drive-in Cinema setup.

The Drive-in events will take place in Dumbrăvița, Timiș, in the parking lot of the Multipurpose Hall. The projection will be made on a large outdoor screen and the sound will be provided through a WiFi system or Ultra-Short Waves Radio. Detailed information about the sound distribution will be given by the organizers on site.

The Drive-in program will take place on September 23rd to 26th, starting around 21.00 hours and will last a maximum of 3 hours. The program can be consulted on the internet:

The access to the Drive-in Cinema area is free, as far as capacity is concerned, according to the “First come, first served” principle. The auto traffic will be directed by the local police. We recommend that you come in time to find a place. Please follow the recommendations of the local police and keep the area clean.

In case of bad weather (rain, storm, etc.), the program will be suspended.
